

Grey Iron Castings
Ductile Iron Castings

To Whom It May Concern:

This letter is to inform you that Faircast is having a very positive experience with Sparks maintenance over the past 4 weeks. They have been integral in assisting in bringing the functionality of our equipment to a higher level. I recommend we sustain the relationship for an indeterminate period. I have not identified any damages to Faircast equipment or products. They can be tied to a minimum of \$65,000 of savings during their short time here.

Doug Bonnizzio

Plant Manager
